

## **Job Title: Graduate Engineer – Bilingual (French/English)**

### **Job Summary:**

We are seeking highly motivated **graduate engineers** with strong communication skills in both **French and English** to join our dynamic team. This is a unique opportunity to work on innovative, sustainable infrastructure and engineering projects in a collaborative, multicultural environment.

### **Key Responsibilities:**

- Support senior engineers and project managers in the design, analysis, and delivery of multidisciplinary engineering projects.
- Participate in technical studies, reports, modeling, and design documentation.
- Collaborate with internal teams and external stakeholders across various locations.
- Assist in preparing proposals, project plans, and client presentations.
- Contribute to digital transformation initiatives, innovation, and continuous improvement efforts.
- Communicate technical information effectively in both French and English.

### **Requirements:**

- **Bachelor's degree** in civil, Mechanical, Electrical, Environmental, or a related engineering discipline (graduation year: 2025 or 2026).
- Strong oral and written communication skills in both French and English. A minimum A2 level (DELF) in French is required; B1 or B2 proficiency is an advantage.
- Passion for engineering, innovation, and sustainability.
- Ability to work collaboratively in diverse, multidisciplinary teams.
- Strong analytical and problem-solving skills.
- Proficiency in Microsoft Office and basic knowledge of design or simulation software is an asset.
